MESSAGE FROM THE CHAIRMAN.....

Fifteen year ago when Shivani Educational and Charitable Trust decided to start Synergy Institute of Engg.& Technology at Dhenkanal, its aim was to establish a graduate Engineering college to cater to the technical manpower needs of the 21st century. In the mean time, the Trust Board has opened a B.Tech college - Synergy Institute of Technology- at Phulanakhara, BBSR and Synergy, Dhenkanal has also opened Post Graduate courses in 5 disciplines. Recently the Trust Board has launched a model school of D.P.S. fame at Dhenkanal from the session 2014-15 to provide quality education to kids and children.

With the establishment of Delhi Public School, Synergy Dhenkanal the Trust Board has crossed yet another significant milestone. Now a days every city and town boasts of a number of schools for kids and children. Dhenkanal also has no dearth of such schools. Our Trust board decided to go for a school at Dhenkanal which would bring about holistic development of children so that our little boys and girls would come up as excellent human beings in life. Our aim is to provide the best of education to the children. Teaching little children has always been a daunting task. It has rightly been said that "teaching children is a profession where we must know how to lose time to get it." Children are "God's apostles." The smallest children are nearest of God as the smallest planets are nearest to the Sun. Shepherding children in the most enchanting phase of their lives is a wonderful experience and certainly one of the noblest professions of the world.

I hope and trust that everybody associated with D.P.S Synergy Dhenkanal will live up to these expectations and do their work with utmost devotion.
