Message From The Chairman... Remembering Gandhiji

There is a widespread misconception with regard to success in life. When the turnover of your company increases it is only growth, not success. Growth aided by ethics is progress and progress combined with humanity and spirituality is success. We all know, material wealth alone cannot bring us peace and happiness – the ultimate goal of life. So without peace and happiness no one can be called successful.

Millions spend their lives in quest of peace and happiness forever searching but never getting and dying disappointed. Happiness is a shy bird. If you hunt it, it will fly away. The heavenly bird will alight only on the hand that does not grasp it.

The last month of the year 2019 has been turbulent with violence in some major cities. A lot of misinformation and disaffection have been and are still being spread in the society. Some are whipping up a hysteria of communal passion for sheer political reasons.

We are sure, our vibrant democracy which is based on Sabka Saath, Sabka Vikash and Sabka Vishwas and which believes in love for all and malice towards none, will tide over this temporary turmoil.

I wish and pray to Almighty God that the New Year 2020 brings peace, bliss and prosperity in the lives of all members of our Synergy Family.

Happy New Year 2020.
