Message from The Chairman..... **Empowering India Through Digitalization**

In this Digital Era, Organizations are facing various new challenges in building a Digital and Future Ready Workforce by creating urgency for providing new training to their employees. Digital India, a Flagship Programme by Honourable Prime Minister Shri Narendra Modi, was launched in the year 2015 with a vision to transform India into a digitally empowered society and knowledge economy. The campaign has helped Government services available to people all over the country electronically by improved internet connectivity to both rural and urban areas with high speed internet networks. Transformation of business activity and Government services digitally requires universal digital literacy which is possible when employees of organizations are trained in providing such services to their customers. High speed internet connectivity in rural areas has helped aspiring school and college students to have access to online classes and appear competitive exams online.

The Indian Economy faced a big setback due to “COVID-19” pandemic putting pressure on all organizations to develop flexible and resilient workforce. Digital Transformation in HR requires a shift from traditional resources and processes to new digitally advanced ones. Human Resource Managers should focus also on how technology can enhance employee recruitment, selection, training and development leading to organizational productivity. When employees are trained in handling digital banking services, they can help their customers efficiently both in urban and rural areas. Training should be provided to the employees to increase their skill-sets, knowledge and adaptability with the introduction of information technology and mechanization of operations which has changed the face of Indian corporate sectors like never before.

Employees of an organization should have a flexible approach towards any change happening in the business environment and develop a learning attitude which will help them adapt to any organizational changes. Today is the age of cashless and paperless transactions and employees are expected to keep themselves upgraded and up-to-date with upcoming digital changes to sustain in this dynamically changing business environment. The process of digitalization of a country starts with the realization by every individual that being digitally empowered is a necessity not a choice.

Children's Day Celebration at DPS, Dhenkanal

"There is no garden as beautiful as childhood". Every child is a different kind of a flower; together they make this world a beautiful garden, a day marking childhood. Children's day celebrations focus on children and their enjoyment. The day is celebrated to pay tribute to the legendary freedom fighter and our first Prime Minister Pandit Jawaharlal Nehru popularly known as Chacha. DPS, Dhenkanal always strives to emerge out with something new for its students and children with a completely different vibe. So, to add more charm and to attract the students this day was themed as "Razzmatazz".

The school field and classrooms were chosen as venue. A beautifully decorated stage was constructed. The program started at 8.30 a.m with the openings by Ganesh Sir and the students of grade 8 and 9. The whole program was filled with various types of cultural events like songs, dances, horror show, (Maths, English, Odia, Social studies and social science) exhibitions were performed by the students of the school. Beautiful dance performances by two teachers Fast Sahoo and Samapika Das startled all the students and audiences. Ms. Jyotirmayee Nath, president awardee teacher working as ABEO cum BRCC in Gondia block was invited as the chief guest of this program and the wonderful part was that she donated her one-day salary to the students for chocolates, as children's day gift.

The best part of the day was school fest which included lots of items like biryani, the dahi wada, panipuri, ice creams and many more eatables. The theme of the whole celebration was "Children you are precious we love you". The power-packed performance set the stage on fire. To highlight the importance of this day an informative speech was given by revered Principal Sir. The campus was buzzed with excitement and joy. The day ended in a beautiful resonance lingering in everybody's minds. The entire program was applauded by everyone. Everybody's presence will always remain etched in the memory of one and all.
