Message From The Chairman.....

Good and Evil

Once again that time of the year has come when the Mother of the Universe descends on earth to shower blessings on her children. Goddess Durga is worshipped as preserver and destroyer. She is destroyer of evil and preserver of the good, the virtuous and the innocent.

Good and evil lie close together like sunshine and shadow, like light and darkness. Life is a scene of good and evil as we make it. In this world there is a constant warfare going on between forces of heaven and forces of hell. From time to time we see terrorists killing men women and children. Whether it is the Trade centre in America or Taj Hotel in Mumbai or places of worship- everywhere terrorists raise their ugly head. Even they barged into class rooms and fired indiscriminately at little innocent school children in Peshawar.

PM Modi's initiatives like 'Make in India' the 'Digital India' and 'Skill India' have attracted attention of global investors who can help our country progress in the path of development and growth. However a congenial and business friendly environment is essential for development. We must provide a robust infrastructure to business. Therefore terrorism must be put down. There can be no progress without peace.

May the Divine Mother give us the strength to fight the forces of evil and make things better!

(Binod Dash)
