Synergy Group of Institutions

Message From The Chairman.....

NEW YEAR MESSAGE

At the outset let me wish all our students and staff of Synergy Group of Institutions a very happy and prosperous New Year 2019.

As we pass through life we go through many frustrating experiences. If we cling to our failures and frustrations, we can never progress. Likewise, dwelling on the pleasant memories and achievements of our past beyond a point is also meaningless because past will not come back again.

We may go to the place of our birth but we can never go back to our youth. We must plan for our future.

Before Nelson Mandela stepped out of the prison he said, "As I stand before the door to my freedom I realize that if I do not leave my pain, anger and bitterness behind me I'll be in prison."

Self imprisonment is worse than that imposed. How many are in self-inflicted pains today for lack of forgiveness? How many of us have imprisoned ourselves inside the walls of anger and bitterness? Holding grudges does not make one strong, it makes one bitter. Forgiveness does not make you weak; it sets you free.

Let us consider this when we are preparing to move into the New Year 2019.

Jai Hind

An **Educators' Meet on Holistic Education, a New Paradigm** was organized in the premises of Sri Sri University, Cuttack on 28.09.2018. **Dr.P.K.Nayak**, Asso. Prof. represented Synergy, Dhenkanal at the meet. Addressing the seminar Sri Sri Ravishankar stressed the importance of yoga and meditation. The type of education being imparted today is not adequate to build good human beings. The aim of education should be to bring about holistic development of the students so that they can successfully navigate through life and come up as excellent men & women. We see people tormented by stress and strain, unable to face various problems as they enter upon life. Sri Sri said that most of the ills of the present day society would disappear only when we practice meditation and yoga in a proper perspective. Meditation brings peace of mind while yoga builds a healthy body. Taking a cue from India, many countries like Germany, Korea and other advanced countries have now included yoga in their curriculum of studies or induction programs. In fact advanced nations of the world are beginning to realize the indisputable importance and relevance of yoga and meditation to bring about peace and happiness in the world. Yoga & Meditation sharpen the perceptual ability, intuition and creativity of the individual. In this age of doubts disputes distractions and fear it is of paramount importance to remain focused without which success is not possible. Single minded devotion is the root of success. Yoga & meditation alone can enable people to remain focused. Sri Sri rightly observed that all our success springs from singleness of mind and all our failures from division of mind.
